

## Parenting e Sign On Account for Power School

Parents create an account for the Parent Portal and then of their children under one account. They go to the e-Access and request the EB D and Parent Order for Parent Portal. Parents do not do this from the App Store. The Parent Portal app is on the e-Access website. The Parent Portal app is not on the e-Access website. The app is for parents to create an account for the e-Access website. Once they create the account, they can then sign into the Parent Portal for their children.

When creating an account, parents need to provide the email address of the parent and the email address of the child.
