GRADES 1-5 and Proficiency Based Reporting

In grades one through five, numerical grades as specified shall be used to report student progress for each grading period. Report cards will reflect mastery of the South Carolina College and Career-Ready Standards for each content area. Numerical grades will be used on report cards, transcripts, and permanent records in reading and mathematics for grade one. Numerical grades will be used in all subject areas for grades two through 12, except as noted in the following paragraphs.

- ◁ Meeting standards (MS), making progress towards standards (MPS) and not making progress towards standards (NMP) will be used in art, physical education, and music in grades one through five. MS, MPS, and NMP will be used in ELA, social studies and science in grade one and handwriting in grades one and two. Health will be included with science in grades one through five.
- ◁ In grades one through five, the ELA grade will be a composite of spelling, English and composition, with reading being a separate grade. In grades six, seven, and eight, the ELA grade will be a composite of English, reading, and composition.

In addition, for the 2018-2019 school year, we will also be using proficiency-based reporting. This is reporting that is based on students demonstrating mastery of the knowledge and skills they are expected to learn in one unit before they progress to the next lesson.

MEDIA CENTER

We want to encourage our students to take full advantage of the Media Center and the many opportunities for learning and enrichment it provides. Students are responsible for library books they have checked out and are reminded to bring the library books to school on the day that their class is scheduled to go to the media center.

To be identified, students must meet two of the following dimensions:

concepts, effective life skills and successful coping skills

*North Aiken Elementary School's students are expected to dress, be groomed, and otherwise conduct themselves in such a way as to not distract or cause disruption in the educational program or orderly operation of the school. Personal appearance and conduct of students should promote health and safety and contribute to a climate conducive to teaching learning. School administrators will be responsible for determining violations of this policy.

ABSENCES, EXCUSES, AND STUDENT ATTENDANCE REGULATIONS

GRADES K-5: Student attendance will be recorded on a daily basis. To be counted present for the day, a student must attend at least half of the school day. When a student returns to school after an absence, a note of explanation from the parent, guardian, physician, or other health provider, must be submitted within (5) school days. Failure to submit notes for absences within this time frame will result in the absence being marked "unlawful" regardless of reason. Absences up to ten per year will be considered lawful if the reasons for the absences are defined a lawful according to this policy. The principal will promptly approve or disapprove any absences in excess of five for semester courses, to ten per year. All absences, whether lawful or unlawful, are charged against the maximum allowed. The parent should be notified before the maximum number of absences allowed is reached. The school will maintain on file evidence of notification (i.e., copies of letters sent, records of conference held, etc.).

Lawful Absences:

1. Students who are ill and whose attendance would endanger their health or the health of others may be temporarily excused from attendance. A statement from a physician or other health provider may be required.
2. Students in whose immediate family there is a serious illness or death may be temporarily excused from attendance. A statement from a physician or other health provider may be required.
3. Students may be excused from attendance for recognized religious holidays of their faith.
4. Students may be excused from attendance for travel or attendance at events that the principal approved as an education experience. Request for approval should be submitted to the principal in writing at least five days in advance.
5. Students may be excused from emergencies as approved by the principal.
6. Other lawful absences are detailed in Policy JH-R.
7. Chronic, or extended illness, requires a certification of the illness from a physician or other health provider.

The statement of illness must be presented to the school at the time of registration or immediately following the medical diagnosis. Such statement will become a part of the student's health file and will be placed in the permanent record. All absences in excess of (10) days must be approved by the principal.

UNLAWFUL ABSENCES

An unlawful absence is defined as a student's willful absence from school without the knowledge of the parents, or a student's absence from school without an approved reason with or without the knowledge of the parents.

ADMINISTRATIVE RULE MEDICINES (JGCD-R) MEDICATIONS IN SCHOOLS

If a student is required to take medication during school hours, and the parent/guardian cannot be at the school to administer the medication, only the principal or principal's designee will administer the medication in compliance with the following:

1. The parent/guardian or emergency contact designee is requested to deliver to the school a completed district medication form and any medication except controlled substances and is required to deliver controlled substances. All medication must be in the original prescription container labeled with the following typed information:

- a. student's name
- b. name of medicine
- c. approximate duration of treatment
- d. time to be administered
- e. dosage
- f. date
- g. strength
- h. pharmacy name, address, phone no.
- i. physician's name
- j. directions for use

If, under extenuating circumstances, the parent/guardian is unable to personally deliver the medication to the school, a note indicating the number of units of medication must be sent with the student and must accompany the container and the completed district medication form. Non-prescriptive (over the counter) medications in the following categories are requested to be delivered to the school by the parent/guardian and must

4. Students may be given permission to carry and self-administer their medications due to life threatening conditions. Permission will be granted only after a physician's order is received (i.e. using the District Medication form, etc.).
5. The school district retains the discretion to reject any request for administration of medicine.
6. A copy of this regulation and the policy may be provided to parent/guardian upon request.

Family Bridging Activities

We need you! Did you know that when parents are involved in their child's education, students achieve more, exhibit more positive attitudes and behavior, and feel more comfortable in the learning environment? We all want our students to be successful in life, right? Well, this is how it can happen. Each month there will be a calendar sent home. Complete the activities on the calendar to earn points. Not only will you earn parent points, but you will also show your child that we are all in this together!

Parent Points

You will be able to earn parent points throughout the year just for partnering with us! When you complete the bi-weekly survey you will earn points, when you and your child complete bridging activities you will earn points, when you join PTO, you will earn points, and there will be more fantastic ways for you to earn parent points throughout the year!
